## KEY RISKS

### WHAT ARE THE KEY RISKS ASSOCIATED WITH THE FUND?

#### Countries or Foreign securities risk

- ▶ The Fund invests in a Target Fund that is domiciled in the United Kingdom and also invests in securities listed outside the United Kingdom. Any changes in the economic fundamentals, social and political stability, uncertainty or changes in countries' official currencies, currency movements and foreign investments policies in these foreign countries may increase the volatility in asset values, liquidity and default risk which may have an impact on the prices of the securities that the Target Fund invests in and consequently may also affect the Fund's NAV.

Refer to "Specific Risks" section of the Fund's master prospectus.

#### Currency risk

- ▶ This risk is associated with investments denominated in currencies different from the base currency of the Fund.

### WHAT ARE THE KEY RISKS OF THE TARGET FUND?

#### Security risk

- ▶ Adverse price movements of a particular security invested by the Target Fund may adversely affect the Target Fund's net asset value.

Refer to "Specific Risks" section of the Fund's master prospectus.

#### Fund management of Target Fund risk

- ▶ While the Manager will exercise due skill and care in selecting the Target Fund, it does not have control over the management of the Target Fund and there is no guarantee that the investment objectives will be met. This may result in Unit Holders suffering losses in their investments in the Target Fund.

#### Errors in calculation of the net asset value of the Target Fund's risk

- ▶ There is a possibility there are errors in calculation of the net asset value of the Target Fund. In the event such errors occur, the net asset value of the Target Fund will be affected hence, the Target Fund will comply with the rules set forth in the relevant regulatory provisions applicable to the Target Fund.

#### Liquidity risk

- ▶ Liquidity risk here refers to two scenarios. The first scenario is where the allocated liquidity of the Target Fund is insufficient to meet redemption needs. The second scenario is where the investments in the Target Fund are thinly traded. Should the investments in the Target Fund be thinly traded, this may cause the Target Fund to dispose the investment at an unfavourable price in the market and may adversely affect investors' investment.

**Countries or Foreign securities risk**

- › This risk is associated with investments in securities listed or domiciled in countries other than the country of domicile. Any changes in the economic fundamentals, social and political stability, uncertainty or changes in countries' official currencies, currency movements and foreign investments policies in these countries may increase the volatility in asset values, liquidity and default risk which may have an impact on the prices of the securities that the Target Fund invests in and consequently may also affect the net asset value of the Target Fund.

**Currency risk**

- › This risk is associated with investments denominated in currencies different from the base currency of the Target Fund.

**Restrictions on foreign investment risk**

- › Some countries prohibit or impose substantial restrictions on investments by foreign entities. There may also be instances where a purchase order subsequently fails because the permissible allocation to foreign investors has been filled, depriving the Target Fund of the ability to make its desired investment at the time.

**Counterparty risk**

- › The investment manager of the Target Fund will place transactions, hold positions and place cash on deposit with a range of counterparties (institutions). There is a risk that the counterparties may default on their obligations or become insolvent which could adversely affect the net asset value of the Target Fund.

All fees, charges and expenses payable by the Unit Holder and/or the Fund, as the case may be, are subject to the Goods and Services Tax ("GST") at a rate of 6% or such other prescribed rate as may be imposed from time to time, and incurred by the Unit Holder directly when purchasing or redeeming Units of the Fund and indirectly when investing in the Fund.
