LIPPER LEADERS RATING (OVERALL)

Total Return	Consistent Return	Preservation	Lipper Leaders Key
②	②	④	Lowest ① Highest ⑤

The Lipper Leaders Ratings System is a set of tools that guide investors and their advisors to select funds that suit individual investment styles and goals. It uses investors-centred criteria to deliver a simple, clear description of a fund's success in meeting certain goals, such as preserving capital or building wealth through consistent strong returns.

Lipper Leader ratings are derived from highly sophisticated formulas that analyse funds against clearly defined criteria. Each fund is ranked against its peers based on the metric used (such as Total Return or Expense), and then the top 20% of funds in that ranking receive the Lipper Leader designation. Lipper Leaders measures are not predictive of future performance, but they do provide context and perspective for making knowledgeable fund investment decisions.

FUND MANAGER'S COMMENTARY

During the 3-4 May Federal Open Market Committee ("FOMC") meeting, the US Federal Reserves ("Fed") held rates unchanged at 0.75%-1.00%. The Fed held a confident view of the US economy and noted that the slower economic growth in the first quarter was "transitory". Overall, the Fed remains on course to raise rates at least two more times this year.

On the domestic front, the third Monetary Policy Committee ("MPC") meeting for 2017 will be held on 12 May. Previously, Bank Negara Malaysia ("BNM") commented that the current level of the Overnight Policy Rate ("OPR") remains accommodative and supportive of the economic environment. As such, any changes to the Overnight Policy Rate would depend on BNM's future expectation of domestic growth and inflation.

There will be three government bond auctions with no Malaysian Government Securities ("MGS")/Government Investment Issue ("GII") maturities in May. Malaysia's sovereign bond market is expected to be well supported from onshore real money investors while MYR corporate bond market is expected to see continuous decent supply in the pipeline in the coming month.
