Possible Outcomes of Investing in the Fund

Refer to "Risk Factors" in the "Information In Relation to the Fund" section of the Fund's Master Prospectus.

Investment involves risk and different types of unit trust funds carry different levels of risk. The value of the Fund and its distributions (if any) may rise or fall. These risk factors, among others, may cause you to lose some or all of your investment.

KEY RISKS

WHAT ARE THE KEY RISKS ASSOCIATED WITH THE FUND?

Refer to "Risk Factors" in the "Information In Relation to the Fund" section of the Fund's Master Prospectus.

Security risk

Adverse price movements of a particular security invested by the Fund may adversely affect the Fund's NAV.

Credit or Default risk

This risk refers to the inability of the issuer of the fixed income securities held by the Fund to make the coupon or principal payments when due. In the event the issuer defaults in the coupon or principal payments, the value of the Fund will be adversely affected.

Interest rate risk

Generally, the value of fixed income securities will move inversely to interest rate movements. Therefore, the value of fixed income securities may fall when interest rates rise and vice versa. Fixed income securities of longer duration tend to be more sensitive to interest rate changes.

Please be advised that if you invest in Units through an Institutional Unit Trust Adviser (IUTA) which adopts the nominee system of ownership, you would not be considered to be a Unit Holder under the Deed and you may, consequently, not have all the rights ordinarily exercisable by a Unit Holder (for example, the right to call for a Unit Holder's Meeting and to vote thereat and the right to have your particulars appearing in the register of Unit Holders of the Fund).

(the sales charge is payable for every new subscription)

Switching fee There is no switching fee imposed on switching of Units but Unit Holders have to pay the difference between sales charge if Unit Holders wish to switch into another fund with a higher sales charge. However, no sales charge will be imposed if the fund to be switched into has lower sales charge than the Fund.
