FUND MANAGER'S COMMENTARY

The Malaysian equity market closed the month slightly lower, as the big cap stocks succumbed to some sell down, despite the rising Brent crude oil prices and the tabling of Budget 2018. Increasing acceptance the US president's tax reform proposals and the potential change in the US Federal Reserve's ("Fed") chairperson temporarily made the global markets jittery. Banks underperformed especially those with regional exposure such as Maybank and CIMB. Results season for the 3Q is also underway, which have been generally in line. Tenaga reported decent results and increased their dividend as promised earlier. The Budget 2018 announcement on the 27th October was as expected, focused on implementing measures to increase households' disposable income, in particular the bottom 40% (B40) income group, with special cash payments to be made to the 1.6m civil servants and civil servant retirees.

The FTSE Bursa Malaysia Index ("FBM") Shariah Emas Index ended the month higher at 2.23% mom to close at 13,082.7 points. The broader market gained by 0.53%, underperforming the FBM Shariah Emas Index. The best performing sectors were Technology (+6.56%) and Plantation (+0.61%), whilst the worst performing sectors were Finance (-1.04%) and Property (-0.82%). The FBM Small Cap Index gained 2.85%. Average value traded on Bursa in Oct was RM2.6b vs September of RM2.5b.
