Lipper Ranking	29 of 32	12 of 29	15 of 27	2 of 24	1 of 21	n.a.

Lipper Fund Category: Mixed Asset MYR Flexible

* 50% Financial Times Stock Exchange Bursa Malaysia 100 Index (FBM100) + 50% Maybank 12-month fixed deposit rate
Fund performance and Lipper ranking are sourced from Lipper for Investment Management and the benchmark is from www.bursamalaysia.com and www.maybank2u.com.my, 31 March 2018. Performance is calculated on a Net Asset Value ("NAV") to NAV basis with gross income or dividend reinvested. Past performance is not necessarily indicative of future performance.

LIPPER LEADERS RATING (OVERALL)

Total Return	Consistent Return	Preservation	Lipper Leaders Key
5	5	1	Lowest ① Highest ⑤

The Lipper Leaders Ratings System is a set of tools that guide investors and their advisors to select funds that suit individual investment styles and goals. It uses investors-centred criteria to deliver a simple, clear description of a fund's success in meeting certain goals, such as preserving capital or building wealth through consistent strong returns.

Lipper Leader ratings are derived from highly sophisticated formulas that analyse funds against clearly defined criteria. Each fund is ranked against its peers based on the metric used (such as Total Return or Expense), and then the top 20% of funds in that ranking receive the Lipper Leader designation. Lipper Leaders measures are not predictive of future performance, but they do provide context and perspective for making knowledgeable fund investment decisions.

FUND MANAGER'S COMMENTARY

Equity:
Global markets corrected sharply in March as investors sold down on concerns regarding global growth concerns after escalating US protectionist stance with US President Trump deciding to "make-good" on one of his election promises by imposing hefty tariffs on steel and aluminum imports from China, Canada, and the European Union ("EU"). This subsequently led to China retaliating with their own increase of tariffs on exports from the US – increasing US-China trade tensions. Malaysian equity markets similarly was volatile in tandem with global markets, given the openness of the Malaysian economy. However, the Malaysian ringgit during the period managed to maintain its strength against the USD, appreciating 1.6% mom, supported by firmer oil prices. The Kuala Lumpur Composite Index ("KLCI") closed the month slightly up at 0.39% mom to close at 1,863.46 points. The broader market declined by 1.31%, underperforming the KLCI. The best performing sector was Consumer (+3.56%) for the second consecutive month as Nestle Berhad's share price continued its rally, after its inclusion in the MSCI Malaysia Index and FBMKLCI index. The worst performing sectors were Technology (-15.30%) and Property (-8.31%). Technology stocks continued to perform poorly suffering from the negative sentiment from the escalating trade war. Sentiment for the property sector continues to be weak, dampened by potential oversupply and affordability issues compounded by the January Bank Negara rate hike. The FTSE Bursa Malaysia ("FBM") Small Cap Index declined by 11.15%. Average value traded on Bursa in March was RM2724m lower than Feb by 5%.

Fixed Income:
In the March meeting, the US Federal Reserve ("Fed") raised its key interest rates by 25bps to between 1.50%-1.75% for the first time this year as widely expected. However, the Fed appeared to be slightly hawkish as the Fed continues to remain positive on future growth while raising the Fed Fund Rates projections for 2019 and 2020.

On the domestic front, Bank Negara Malaysia ("BNM") has projected Malaysia's 2018 headline inflation to average between 2-3%. Core inflation is expected to remain moderate in 2018, due to smaller cost pass-through to retail prices compared to the previous year. Overall, Bank Negara believes that inflationary pressures from domestic demand factors will be contained in 2018 due to improving labour market conditions.

There will be three Government bond auctions in April with total estimated issuance of circa RM 10bil with no MGS/GII maturities during the month. As such, Malaysia's sovereign bond market is expected to be well supported from onshore real money investors. MYR corporate bond market is expected to see continuous decent supply in the pipeline in the coming months and we expect demand for corporate bonds to remain well supported.

PORTFOLIO CHARACTERISTICS AS AT 31 MARCH 2018

	Value
Average Duration (years)	5.10
Average Yield to Maturity (%)	4.94

Note: This portfolio represents the Fixed Income portion of the Fund.

ANNUAL PERFORMANCE FOR THE CALENDAR YEAR ENDED

IMPORTANT INFORMATION

Based on the Fund's portfolio returns as at 28 February 2018, the Volatility Factor (VF) for this Fund is 12.0 and is classified as "Very High" (Source: Lipper). "Very High" generally includes funds with VF that are higher than 10.615. The VF means that there is a possibility for the Fund in generating an upside return or downside return around this VF. The Volatility Class (VC) is assigned by Lipper based on quintile ranks of VF for qualified funds. VF is subject to monthly revision and VC will be revised every six (6) months. The VF for the Fund may be higher or lower than the VC, depending on the market conditions. The Fund's portfolio may have changed since this date and there is no guarantee that the Fund will continue to have the same VF or VC in the future. Presently, only funds launched in the market for at least 36 months will display the VF and its VC.

Investors are advised to read and understand the contents of the Eastspring Investments Master Prospectus dated 15 July 2017, the Eastspring Investments First Supplementary Master Prospectus dated 2 February 2018 (collectively, the "Prospectuses"), as well as the Fund's Product Highlights Sheet ("PHS") before investing. The Prospectuses and PHS are available at offices of Eastspring Investments Berhad or its authorised distributors and investors have the right to request for a copy of the Prospectuses and PHS.

The Prospectuses have been registered with the Securities Commission Malaysia who takes no responsibility for its contents. Units will only be issued upon receipt of the application form accompanying the Prospectuses. Past performance of the Fund is not an indication of the Fund's future performance. Unit prices and distribution payable, if any, may go down as well as up. Where a unit split/distribution is declared, investors are advised that following the issue of additional units/distribution, the Net Asset Value ("NAV") per unit will be reduced from pre-unit split NAV/cum-distribution NAV to post-unit split NAV/ex-distribution NAV.

Where a unit split is declared, investors are advised that the value of their investment in Malaysian Ringgit will remain unchanged after the issue of the additional units. Investments in the Fund are exposed to security risk, credit or default risk and interest rate risk. Investors are advised to consider these risks and other general risks as elaborated in the Prospectuses as well as fees, charges and expenses involved before investing.

All fees, charges and expenses payable by the unit holder are subject to Goods and Services Tax ("GST") at a rate of 6% or such other prescribed rate as may be imposed from time to time, and incurred by the unit holder directly when purchasing or redeeming units of the Fund and indirectly when investing in the Fund. The fees, charges and expenses disclosed are exclusive of GST or any other taxes or duties that may be imposed by the government or other authorities from time to time.

Eastspring Investments companies (excluding JV companies) are ultimately wholly owned/indirect subsidiaries of Prudential plc of the United Kingdom. Eastspring Investments companies (including JV companies) and Prudential plc are not affiliated in any manner with Prudential Financial, Inc., a company whose principal place of business is in the United States of America.
