Year ended	1.1.2017 to 31.12.2017	1.1.2016 to 31.12.2016	1.1.2015 to 31.12.2015	1.1.2014 to 31.12.2014	1.1.2013 to 31.12.2013
	(%)	(%)	(%)	(%)	(%)

Annual total return	23.97	13.31	6.10	1.09	4.95
---------------------	-------	-------	------	------	------

Source: The above total return of the Fund was sourced from Lipper for Investment Management.

Bases of calculation and assumptions made in calculating returns:

$$\text{Percentage growth} = \frac{\text{NAV}_t - \text{NAV}_0}{\text{NAV}_0}$$

NAV_t = NAV at the end of the period

NAV_0 = NAV at the beginning of the period

$$\text{Performance annualised} = (1 + \text{Percentage Growth})^{1/n} - 1$$

Adjusted for unit split and distribution paid out for the period

n = Number of years

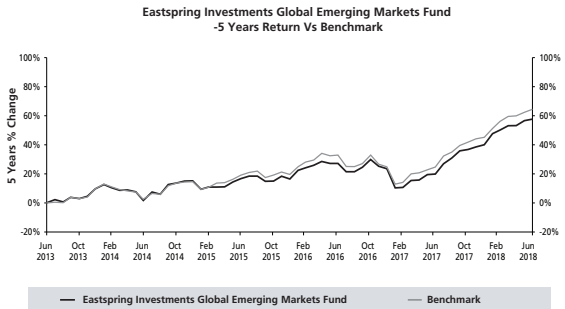

Past performance is not necessarily indicative of future performance and unit prices and investment returns may go down, as well as up.

MANAGER'S REPORT

Fund Performance

For the 5-year period, the Fund recorded a return of 58.86% underperforming the benchmark return of 63.30% by -4.44%

During the period under review, the Fund registered a return of -6.94% underperforming the benchmark return of -6.79% by -0.14%. The underperformance was due to negative stock selection.

The performance is calculated on NAV-to-NAV basis with gross income or dividend reinvested.

Benchmark: MSCI EM Net TR.

Past performance of the Fund is not necessarily indicative of its future performance.

MANAGER'S REPORT (CONTINUED)

Analysis of Fund Performance

For the financial period ended 30 June 2018:

Income Return	Capital Return*	Total Return	Total Return of Benchmark
(%)	(%)	(%)	(%)
0.00	(6.94)	(6.94)	(6.79)

* Capital return components (NAV per unit to NAV per unit).

Distribution/ Unit Split

No distribution or unit split were declared for the financial period ended 30 June 2018.

Investment Strategy During Period Under Review

The Fund has a balanced approach to investing in emerging markets. The Target Fund uses a mix of top-down analysis and bottom-up stock selection, looking to derive 50% of the added value from country allocation and 50% from stock selection. The Target Fund's core investment process does not target any particular style bias and aims to outperform in most market environments.

During the period under review, the Fund benefitted from its underweight positions in India and Mexico, both of which outperformed, detracted from relative performance as did the overweight to Hungary and the off-benchmark position in Argentina, both of which underperformed. This was offset by the underweights to Indonesia and Malaysia, which underperformed.

Stock selection was positive in China, India and Brazil. It was negative in Korea, Russia and Poland.

The Fund has begun to add opportunistically and selectively, taking advantage of recent market weakness to initiate positions in stocks where we have conviction in the long-term outlook and which now offer attractive upside to conservative fair value estimates. We continue to monitor US policy rhetoric and the US dollar for signals to change our positioning.

MANAGER'S REPORT (CONTINUED)

Asset Allocation

Asset Allocation	30-Jun 2018 (%)	31-Dec 2017 (%)	Changes (%)
Collective investment scheme-Foreign	97.08	96.01	1.07
Cash and other assets	2.92	3.99	(1.07)

Asset Allocation as at 30 June 2018

There were no significant changes in asset allocation of the Fund for the period under review.

State of Affairs of the Fund

There have been neither significant change to the state of affairs of the Fund nor any circumstances that materially affect any interests of the unit holders during the period under review.

MARKET REVIEW

Global equities recorded a positive return in Q2, despite a deterioration in the outlook for global trade. US-China trade talks failed to deliver a sustainable agreement and the US announced a list of \$50 billion worth of Chinese imports which will face 25% tariffs (\$34 billion of which take effect in July). China retaliated with plans for 25% tariffs on \$50 billion worth of US goods. Meanwhile the US also imposed tariffs on steel and aluminium imports from the European Union ("EU"), Canada and Mexico, leading these nations to pursue countermeasures. In response, President Trump threatened a 20% tariff on US imports of EU assembled cars.

US high frequency data implied a re-acceleration in economic growth following a weak Q1. Together with ongoing earnings momentum this was supportive of US stocks. The Federal Reserve increased its key policy rate by 25 basis points ("bps") in June, as expected. It also slightly increased its forecasts for growth and inflation for 2018. By contrast, European activity indicators reflected ongoing steady growth but recovery after the deceleration seen in Q1. The European Central Bank announced that it will reduce its quantitative easing ("QE") programme from €30 billion per month to €15 billion at the end of September before ceasing QE at the end of December. However, it also indicated that interest rates would remain on hold until at least the summer of next year. Emerging markets ("EM") equities fell sharply with US dollar strength a significant headwind. Escalation in global trade tensions also contributed to risk aversion. The MSCI Emerging Markets Index recorded a negative return and underperformed the MSCI World.

REBATES AND SOFT COMMISSIONS

During the period under review, the Manager and its delegates (if any) did not receive any soft commissions from stockbrokers.

EASTSPRING INVESTMENTS GLOBAL EMERGING MARKETS FUND

UNAUDITED FINANCIAL STATEMENTS

FOR THE SIX MONTHS FINANCIAL PERIOD ENDED 30 JUNE 2018

STATEMENT BY THE MANAGER

We, Tang Chee Kin and Khoo Chuan Keat, being two of the Directors of Eastspring Investments Berhad, do hereby state that, in the opinion of the Manager, the accompanying unaudited financial statements set out on pages 12 to 43 are drawn up in accordance with the provisions of the Deed and give a true and fair view of the financial position of the Fund as at 30 June 2018 and of its financial performance, changes in equity and cash flows for the six months financial period ended on that date in accordance with the Malaysian Financial Reporting Standards and International Financial Reporting Standards.

For and on behalf of the Manager,
EASTSPRING INVESTMENTS BERHAD

The accompanying summary of significant accounting policies and notes to the unaudited financial statements form an integral part of these unaudited financial statements.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES FOR THE SIX MONTHS FINANCIAL PERIOD ENDED 30 JUNE 2018

The following accounting policies have been used in dealing with items which are considered material in relation to the financial statements.

A. BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS

The financial statements have been prepared in accordance with the Malaysian Financial Reporting Standards (“MFRS”) and International Financial Reporting Standards (“IFRS”), under the historical cost convention, as modified by financial assets at fair value through profit or loss.

The preparation of financial statements in conformity with the MFRS requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported financial year. It also requires the Manager to exercise their judgment in the process of applying the Fund’s accounting policies. Although these estimates and judgment are based on the Manager’s best knowledge of current events and actions, actual results may differ.

The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note J to the financial statements.

The Fund has applied the following amendments for the first time for the financial year beginning 1 January 2017:

- Amendments to MFRS 107 ‘Statement of Cash Flows – Disclosure Initiative’
- Annual improvements to MFRSs 2014 – 2016 Cycle: MFRS 12 ‘Disclosure of Interests in Other Entities’

There were no significant impact to other accounting policies of the Fund as a result of the above mentioned.

The new standards, amendments to published standards and interpretations to existing standards that are applicable to the Fund but not yet effective and have not been early adopted are as follows:

(i) Financial year beginning on/after 1 January 2018

- MFRS 9 “Financial Instruments” will replace MFRS 139 “Financial Instruments: Recognition and Measurement”.

MFRS 9 retains but simplifies the mixed measurement model in MFRS 139 and establishes three primary measurement categories for financial assets: amortised cost, fair value through profit or loss and fair value through other comprehensive income (“OCI”). The basis of classification depends on the entity’s business model and the cash flow characteristics of the financial asset. Investments in equity instruments are always measured at fair value through profit or loss with an irrevocable option at inception to present changes in fair value in OCI (provided the instrument is not held for trading). A debt instrument is measured at amortised cost only if the entity is holding it to collect contractual cash flows and the cash flows represent principal and interest.

For liabilities, the standard retains most of the MFRS 139 requirements. These include amortised cost accounting for most financial liabilities, with bifurcation of embedded derivatives. The main changes are:

- For financial liabilities classified as FVTPL, the fair value changes due to own credit risk should be recognised directly to OCI. There is no subsequent recycling to profit or loss.
- When a financial liability measured at amortised cost is modified without this resulting in derecognition, a gain or loss, being the difference between the original contractual cash flows and the modified cash flows discounted at the original effective interest rate, should be recognised immediately in profit or loss.

MFRS 9 introduces an expected credit loss (“ECL”) model on impairment that replaces the incurred loss impairment model used in MFRS 139. The expected credit loss model is forward-looking and eliminates the need for a trigger event to have occurred before credit losses are recognised.

The Fund has reviewed its financial assets and liabilities and has assessed the impacts from the adoption of the new standard on 1 January 2018 as below:

There will be no impact on the Fund's accounting for financial assets as the Fund's quoted securities currently measured at fair value through profit or loss will continue to be measured on the same basis under MFRS 9.

There will be no impact on the Fund's accounting for financial liabilities as the new requirements only affect the accounting for financial liabilities that are designated at fair value through profit or loss and the Fund does not have any such liabilities.

The new impairment model requires the recognition of impairment provisions based on ECL rather than only incurred credit losses as is the case under MFRS 139. It applies to financial assets classified at amortised cost. Based on the assessments undertaken to date, the Fund does not expect any loss allowance to be recognised upon adoption of MFRS 9.

B. INCOME RECOGNITION

Interest income earned from short term deposits is recognised on the accrual basis using the effective interest method.

Realised gain or loss on sale of investments is accounted for as the difference between the net disposal proceeds and the carrying amount of investment, which is determined on a weighted average cost basis.

C. TAXATION

Current tax expense is determined according to the Malaysian tax laws at the current rate based upon the taxable income earned during the financial period.

Tax on dividend income from foreign collective investment scheme is based on the tax regime of the respective country that the Fund invests in.

D. PRESENTATION AND FUNCTIONAL CURRENCY

Items included in the financial statements of the Fund are measured using the currency of the primary economic environment in which the Fund operates (the “functional currency”). The financial statements are presented in Ringgit Malaysia, which is the Fund’s presentation and functional currency.

E. FINANCIAL ASSETS AND FINANCIAL LIABILITIES

i. Classification

The Fund designates its investment in collective investment scheme as financial assets at fair value through profit or loss at inception.

Financial assets are designated at fair value through profit or loss when they are managed and their performance evaluated on a fair value basis.

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and have been included in current assets.

The Fund’s loans and receivables comprise amount due from Manager and cash and cash equivalents.

Financial liabilities are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability.

The Fund’s financial liabilities include amount due to Manager, accrued management fee, amount due to Trustee, other payables and accruals and GST charges payable.

ii. Recognition and measurement

Regular purchases and sales of financial assets are recognised on the trade-date, the date on which the Fund commits to purchase or sell the asset. Investments are initially recognised at fair value.

Financial assets are derecognised when the rights to receive cash flows from the investments have expired or have been transferred and the Fund has transferred substantially all risks and rewards of ownership.

Financial liabilities, within the scope of MFRS 139, are recognised in the statement of financial position when, and only when, the Fund becomes a party to the contractual provisions of the financial instrument.

Financial liability are derecognised when it is extinguished, i.e. when the obligation specified in the contract is discharged or cancelled or expired.

Unrealised gains or losses arising from changes in the fair value of the 'financial assets at fair value through profit or loss' category are presented in the statement of comprehensive income within 'net gain/(loss) on financial assets at fair value through profit and loss' in the period in which they arise. Any unrealised gains however are not distributable.

Collective investment scheme are valued based on the last published net asset value per unit or share of such collective investment schemes or, if unavailable, on the average of the last published buying price and the last published selling price of such unit or share (excluding any sales charge included in selling in such selling price).

Foreign exchange gains and losses on the financial instrument are recognised in statement of comprehensive income when settled or at date of the statement of financial position at which time they are included in the measurement of the financial instrument.

Deposits with licensed financial institutions are stated at cost plus accrued interest calculated on the effective interest method over the period from the date of placement to the date of maturity of the respective deposits.

Loans and receivables and other financial liabilities are subsequently carried at amortised cost using the effective interest method.

iii. Impairment for assets carried at amortised costs

For assets carried at amortised cost, the Fund assesses at the end of the reporting period whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

The amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced and the amount of the loss is recognised in statement of comprehensive income. If "loans and receivables" have a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate determined under the contract.

As a practical expedient, the Fund may measure impairment on the basis of an instrument's fair value using an observable market price.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised (such as an improvement in the debtor's credit rating), the reversal of the previously recognised impairment loss is recognised in statement of comprehensive income.

When an asset is uncollectible, it is written off against the related allowance account. Such assets are written off after all the necessary procedures have been completed and the amount of the loss has been determined.

F. CASH AND CASH EQUIVALENTS

For the purpose of the statement of cash flows, cash and cash equivalents comprise bank balance and deposit with a licensed financial institution that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

G. FOREIGN CURRENCY TRANSLATION

Foreign currency transactions in the Fund are translated into the functional currency using the exchange rates prevailing at the transaction dates. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the statement of comprehensive income, except when deferred in other comprehensive income as qualifying cash flow hedges.

H. UNIT HOLDERS' CAPITAL

The unit holders' contributions to the Fund meet the criteria to be classified as equity instruments under MFRS 132 "Financial Instruments: Presentation". Those criteria include:

- the units entitle the holder to a proportionate share of the Fund's net assets value;
- the units are the most subordinated class and class features are identical;
- there is no contractual obligations to deliver cash or another financial asset other than the obligation on the Fund to repurchase; and
- the total expected cash flows from the units over its life are based substantially on the profit or loss of the Fund.

The outstanding units are carried at the redemption amount that is payable at each financial year if unit holder exercises the right to put the unit back to the Fund.

Units are created and cancelled at prices based on the Fund's net asset value per unit at the time of creation or cancellation. The Fund's net asset value per unit is calculated by dividing the net assets attributable to unit holders with the total number of outstanding units.

I. SEGMENTAL INFORMATION

Operating segments are reported in a manner consistent with the internal reporting used by chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Investment Committee of the Fund's Manager that undertakes strategic decisions for the Fund.

J. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS IN APPLYING ACCOUNTING POLICIES

The Fund makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, rarely equal the related actual results. To enhance the information content of the estimates, certain key variables that are anticipated to have material impact to the Funds' results and financial position are tested for sensitivity to changes in the underlying parameters.

Estimates and judgments are continually evaluated by the Manager and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

NOTES TO THE UNAUDITED FINANCIAL STATEMENTS FOR THE SIX MONTHS FINANCIAL PERIOD ENDED 30 JUNE 2018

1. INFORMATION ON THE FUND

Eastspring Investments Global Emerging Markets Fund (the “Fund”) was constituted pursuant to the execution of a Deed dated 7 December 2007 (the “Deed”), Second Supplemental Master Deed dated 30 November 2009 entered into between Eastspring Investments Berhad (the “Manager”) and HSBC (Malaysia) Trustee Berhad (“HSBC Trustee”). The Fund replaced HSBC Trustee with Deutsche Trustees Malaysia Berhad (the “Trustee”) effective 1 October 2010. A Supplemental Master Deed was entered into between Eastspring Investments Berhad (the “Manager”) and Deutsche Trustees Malaysia Berhad (the “Trustee”) on 30 July 2010 to effect the change of trustee from HSBC Trustee to the Trustee, followed by Second Supplemental Master Deed dated 28 January 2011, Third Supplemental Master Deed dated 9 March 2011, Fourth Supplemental Master Deed dated 20 January 2012, Fifth Supplemental Master Deed dated 26 March 2014, Sixth Supplemental Master Deed dated 2 January 2015, Seventh Supplemental Master Deed dated 11 July 2016, Eighth Supplemental Master Deed dated 25 January 2017, Ninth Supplemental Master Deed dated 11 December 2017 and Tenth Supplemental Master Deed dated 4 June 2018 (collectively referred to as the “Deed”).

The Fund was launched on 11 January 2008 and will continue its operations until terminated as provided under Clause 12 of the Deed.

The Fund invests in a foreign collective investment scheme primarily the Schroder International Selection Fund - Emerging Markets (the “Target Fund”), incorporated in Luxembourg.

The main objective of the Fund seeks to achieve long-term capital growth by investing in a collective investment scheme called the Schroder International Selection Fund - Emerging Markets (the “Target Fund”), which in turn seeks to provide capital growth primarily through investment in equity securities of emerging markets companies.

All investments will be subjected to the Securities Commission (the “SC”) Guidelines on Unit Trust Funds, the SC requirements, the Deed, except where exemptions or variations have been approved by the SC, internal policies and procedures and the Fund’s objective.

The Manager is a company incorporated in Malaysia and is related to Prudential Plc., a public listed company in the United Kingdom. The principal activity of the Manager is the establishment and management of unit trust funds and asset management.

2. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Fund is exposed to a variety of risks which include market risk (inclusive of price risk, interest rate risk and foreign exchange/currency risk), stock/issuer risk, fund management risk, liquidity risk, credit/default risk, country risk, emerging markets risk, non-compliance risk and capital risk.

Financial risk management is carried out through internal control processes adopted by the Manager and adherence to the investment restrictions as stipulated in the Deed.

Financial instruments of the Fund are as follows:

	Note	Loans and receivables	Financial assets at fair value through profit or loss	Total
		RM	RM	RM
2018				
Amount due from Manager		319,072	-	319,072
Cash and cash equivalents	7	4,607,852	-	4,607,852
Collective investment scheme	6	-	135,304,366	135,304,366
		<u>4,926,924</u>	<u>135,304,336</u>	<u>140,231,290</u>
2017				
Amount due from Manager		1,309,550	-	1,309,550
Cash and cash equivalents	7	4,273,501	-	4,273,501
Collective investment scheme	6	-	70,175,450	70,175,450
		<u>5,583,051</u>	<u>70,175,450</u>	<u>75,758,501</u>

All liabilities are financial liabilities which are carried at amortised cost.

Market risk

i. Price risk

This risk refers to changes and developments in regulations, politics and the economy of the country. The very nature of a Unit Trust Fund, however, helps mitigate this risk. The Underlying Fund that is the Schroder International Selection Fund-Emerging Markets would generally hold a well-diversified portfolio of securities from different market sectors that the collapse of any one security or any one market sector would not impact too greatly on the value of the Schroder International Selection Fund-Emerging Market.

The table below shows assets of the Fund as at 30 June which are exposed to price risk.

	2018	2017
	RM	RM
Collective investment scheme designated at fair value through profit or loss	135,304,366	70,175,450

The following table summarises the sensitivity of the Fund's net asset value and (loss)/profit after tax to movements in prices of collective investment scheme at the end of the reporting period. The analysis is based on the assumptions that the market price of the collective investment scheme increased by 5% and decreased by 5% with all other variables held constant. This represents management's best estimate of a reasonable possible shift in the collective investment scheme, having regard to the historical volatility of the prices.

% Change in price of financial assets at fair value through profit or loss	2018		2017	
	Market value	Increase/ (decrease) in loss after tax and net asset value	Market value	Increase/ (decrease) in profit after tax and net asset value
	RM	RM	RM	RM
+5%	142,069,584	6,765,218	73,684,223	3,508,773
-5%	128,539,148	(6,765,218)	66,666,677	(3,508,773)

ii. Interest rate risk

Cash flow interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Fair value interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates.

Interest rate is a general economic indicator that will have an impact on the management of the Fund. The Fund's exposure to the interest risk is mainly confined to short term placements with financial institutions. The Manager overcomes the exposure by way of maintaining deposits on short-term basis.

The Fund's investments in deposits with licensed financial institutions are short term in nature. Therefore, exposure to interest rate fluctuations is minimal.

As at the end of the financial period, the Fund does not hold any other financial instruments that expose it to interest rate risk.

iii. Foreign exchange/currency risk

As the Underlying Fund, Schroder International Selection Fund-Emerging Markets may invest its assets in securities denominated in a wide range of currencies other than Ringgit Malaysia, the net asset value of the Fund expressed in Ringgit Malaysia may be affected favourably or unfavourably by exchange control regulations or changes in the exchange rates between Ringgit Malaysia and such other currencies. This risk is minimised through investing in a wide range of foreign currencies denominated assets and thus, diversifying the risk of single currency exposure.

In the normal course of investment, the Fund Manager will usually not hedge foreign currency exposure. The Fund Manager may however depending on prevailing market circumstances at a particular point in time, choose to use forward or option contracts for hedging and risk reduction purposes.

The following table sets out the foreign exchange/currency risk concentrations and counterparties of the Fund.

	Financial assets at fair value through profit or loss	Amount due to a broker	Total
	RM	RM	RM
<u>2018</u>			
Euro	135,304,366	-	135,304,336
<u>2017</u>			
Euro	70,175,450	(951,221)	69,224,229

The table summarises the sensitivity of the Fund's investments fair value to changes in foreign exchange movements at the end of the reporting period. The analysis is based on the assumption that the foreign exchange rate changes by 5% with all variables remain constants. This represents management's best estimate of a reasonable possible shift in the foreign exchange rate having regard to historical volatility of this rate. An increase/(decrease) in foreign exchange rate will result in a corresponding (decrease)/increase in net assets attributable to unit holders by approximately 5%.

Disclosures below are shown in absolute terms, changes and impacts could be positive or negative.

	Change in price	Impact on (loss)/profit after tax	Impact on net asset value
	%	RM	RM
<u>2018</u>			
Euro	5	6,765,218	6,765,218
<u>2017</u>			
Euro	5	3,461,211	3,461,211

Stock/issuer risk

The performance of equities and money market instruments held by the Underlying Fund is also dependent on company specific factors like the issuer's business situation. If the company-specific factors deteriorate, the price of the specific security may drop significantly and permanently, possibly even regardless of an otherwise generally positive stock market trend. Risks include but are not limited to competitive operating environments, changing industry conditions and poor management.

Fund management risk

There is the risk that the management company may not adhere to the investment mandate of the respective Fund. With close monitoring by the investment committee, back office system being incorporated with limits and controls, and regular reporting to the senior management team, the management company is able to manage such risk. The Trustee has an oversight function over management of the Fund by the management company to safeguard the interest of unit holders.

Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting its financial obligations. Generally, all investments are subject to a certain degree of liquidity risk depending on the nature of the investment instruments, market, sector and other factors. For the purpose of the Fund, the Fund Manager will attempt to balance the entire portfolio by investing in a mix of assets with satisfactory trading volume and those that occasionally could encounter poor liquidity. This is expected to reduce the risks for the entire portfolio without limiting the Fund's growth potentials.

The Fund maintains sufficient level of liquid assets, after consultation with the Trustee, to meet anticipated payments and cancellations of units by unit holders. Liquid assets comprise cash, deposits with licensed financial institutions and other instruments which are capable of being converted into cash within 7 days.

The table below summarises the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at the statement of financial position date to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

	Less than 1 month	Between 1 month to 1 year	Total
	RM	RM	RM
2018			
Amount due to Manager	774,701	-	774,701
Accrued management fee	41,861	-	41,861
Amount due to Trustee	9,440	-	9,440
Other payables and accruals	-	25,106	25,106
Contractual cash outflows	<u>826,002</u>	<u>25,106</u>	<u>851,108</u>
2017			
Amount due to a broker	951,221	-	951,221
Amount due to Manager	35,536	-	35,536
Accrued management fee	22,433	-	22,433
Amount due to Trustee	4,718	-	4,718
Other payables and accruals	-	24,368	24,368
GST charges payable	1,629	-	1,629
Contractual cash outflows	<u>1,015,537</u>	<u>24,368</u>	<u>1,039,905</u>

Credit/default risk

Credit risk refers to the ability of an issuer or a counter party to make timely payments of interest, principals and proceeds from realisation of investments.

The credit risk arising from placements of deposits in licensed financial institutions is managed by ensuring that the Fund will only place deposits in reputable licensed financial institutions. The settlement terms of the proceeds from the creation of units receivable from the Manager are governed by the SC's Guidelines on Unit Trust Funds.

The credit/default risk is minimal as all transactions in collective investment scheme are settled/paid upon delivery using approved brokers.

The following table sets out the credit risk concentrations and counterparties of the Fund.

	Cash and cash equivalents	Amount due from Manager	Total
	RM	RM	RM
<u>2018</u>			
Finance			
- AA2	4,580,841	-	4,580,841
- AA1	27,011	-	27,011
Other			
- NR	-	319,072	319,072
	<u>4,607,852</u>	<u>319,072</u>	<u>4,926,924</u>
<u>2017</u>			
Finance			
- AAA	4,250,442	-	4,250,442
- AA1	23,059	-	23,059
Other			
- NR	-	1,309,550	1,309,550
	<u>4,273,501</u>	<u>1,309,550</u>	<u>5,583,051</u>

None of these assets are past due or impaired.

Country risk

The stock prices may be affected by the political and economic conditions of the country in which the stocks are listed. A unit trust fund that invests in foreign securities may experience more rapid and extreme changes in value than a unit trust fund that invests exclusively in securities of Malaysian companies. Nationalisation, expropriation or confiscatory taxation, currency blockage, political changes or diplomatic developments could adversely affect a unit trust fund's investment in a foreign country. In the event of nationalisation, expropriation or other confiscation, a unit trust fund could lose its entire investment in foreign securities. Careful consideration shall be given to risk factors such as liquidity, political and economic environment before any investments are made in a foreign country.

Adverse conditions in a certain region can adversely affect securities of other countries whose economies appear to be unrelated.

Emerging markets risk

Investments in securities of emerging market issuers entail significant risks in addition to those customarily associated with investing in securities of issuers in more developed markets, such as:

- i. low or non-existent trading volume, resulting in a lack of liquidity and increased volatility in prices for such securities, as compared to securities of comparable issuers in more developed capital markets,
- ii. uncertain national policies and social, political and economic instability, increasing the potential for expropriation of assets, confiscatory taxation, high rates of inflation or unfavourably diplomatic developments,
- iii. possible fluctuations in exchange rates, differing legal systems and the existence or possible imposition of exchange controls, custodial restrictions or other laws or restrictions applicable to such investments,
- iv. national policies which may limit a portfolio's investment opportunities such as restrictions on investment in issuers or industries deemed sensitive to national interests, and
- v. the lack of relatively early development of legal structures governing private and foreign investments and private property.

Non-compliance risk

Non-compliance risk arises when the Manager and others associated with the Fund are not compliant to the rules set out in the Fund's constitution or the law that governs the Fund or applicable internal control procedures, or act fraudulently or dishonestly.

The non-compliance may expose the Fund to higher risks which may result in a fall in the value of the Fund which in turn may affect its investment goals. However, the risk can be mitigated by the internal controls and compliance monitoring undertaken by the Manager. For the Fund, foreign market risk is managed through portfolio diversification by the collective investment scheme which invests among markets/countries and in companies which are well researched.

Capital risk

The capital of the Fund is represented by equity consisting of unit holders' capital of RM139,877,210 (2017: RM72,100,603) and (accumulated losses)/retained earnings of RM (497,028) (2017: RM2,617,993). The amount of equity can change significantly on a daily basis as the Fund is subject to daily subscriptions and redemptions at the discretion of unit holders. The Fund's objective when managing capital is to safeguard the Fund's ability to continue as a going concern in order to provide returns for unit holders and benefits for other stakeholders and to maintain a strong capital base to support the development of the investment activities of the Fund.

Fair value estimation

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e. an exit price).

The fair value of financial assets traded in active market (such as trading securities) are based on quoted market prices at the close of trading on the period end date. The Fund utilises the last traded market price for financial assets where the last traded price falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Fund Manager will determine the point within the bid-ask spread that is representative of the fair value.

An active market is a market in which transactions for the asset take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

The fair value of financial assets that are not traded in an active market is determined by using valuation techniques.

Fair value hierarchy

- i. The table below analyses financial instruments carried at fair value by valuation method. The different levels have been defined as follows:
- Level 1: Quoted prices (unadjusted) in active market for identical assets or liabilities.
 - Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
 - Level 3: Inputs for the asset and liability that are not based on observable market data (that is unobservable inputs).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement.

Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Fund. The Fund considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The following table analyses within the fair value hierarchy the Fund's financial assets (by class) measured at fair value:

	Level 1	Level 2	Level 3	Total
	RM	RM	RM	RM
<u>2018</u>				
Financial assets at fair value through profit or loss:				
Collective investment scheme	135,304,366	-	-	135,304,366
<u>2017</u>				
Financial assets at fair value through profit or loss:				
Collective investment scheme	70,175,450	-	-	70,175,450

Investments whose values are based on quoted market prices in active markets, and are therefore classified within Level 1, include collective investment scheme. The Fund does not adjust the quoted prices for these instruments. The Fund's policies on valuation of these financial assets are stated in Note E to the financial statements.

- ii. The carrying value of amount due from Manager, cash and cash equivalents and all liabilities are a reasonable approximation of their fair values due to their short term nature.

3. MANAGEMENT FEE

In accordance with the Deed, the Manager is entitled to a management fee at a rate not exceeding 1.80% per annum on the net asset value of the Fund accrued on a daily basis for the financial period.

For the financial period ended 30 June 2018, management fee is recognised at a rate of 1.80% (2017: 1.80%) per annum on the net asset value of the Fund, calculated on a daily basis. As the Fund invests in collective investment scheme, any management fee charged by Schroder International Selection Fund-Emerging Markets to the Fund will be fully refunded. The rebate of management fee is 1.50% per annum or RM985,389 (2017: 1.50% per annum or RM351,823) calculated on net asset value of Schroder International Selection Fund-Emerging Markets on a daily basis. In accordance with the SC's Guidelines on Unit Trust Funds, there is no double charging of management fee to the Fund.

There will be no further liability to the Manager in respect of the management fee other than the amounts recognised above.

4. TRUSTEE FEE

In accordance with the Deed, the Trustee is entitled to an annual fee at a rate not exceeding 0.08% per annum on the net asset value of the Fund, subject to a minimum fee of RM18,000 per annum (excluding foreign custodian fees and charges).

For the financial period ended 30 June 2018, the Trustee fee is recognised at a rate of 0.08% per annum (2017: 0.08%) on the net asset value of the Fund, subject to a minimum fee of RM18,000 per annum, exclusive of foreign custodian fees and charges, calculated on daily basis.

There will be no further liability to the Trustee in respect of the trustee fee other than the amounts recognised above.

5. TAXATION

	6-months financial period ended 30.6.2018	6-months financial period ended 30.6.2017
	RM	RM
Tax charged for the financial period:		
Current taxation-local	-	-

The numerical reconciliation between (loss)/profit before taxation multiplied by the Malaysian statutory tax rate and tax expense of the Fund is as follows:

	6-months financial period ended 30.6.2018	6-months financial period ended 30.6.2017
	RM	RM
(Loss)/profit before taxation	<u>(10,608,706)</u>	<u>4,431,140</u>
Tax at Malaysian statutory rate of 24%	(2,546,089)	1,063,473
Tax effect of:		
Investment income exempt from tax	2,462,712	(1,100,110)
Expenses not deductible for tax purposes	22,662	11,836
Restriction on the tax deductible expenses for Unit Trust Funds	<u>60,715</u>	<u>24,801</u>
Taxation	<u>-</u>	<u>-</u>

6. FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS

	2018	2017
	RM	RM
Designated at fair value through profit or loss:		
Collective investment scheme	<u>135,304,366</u>	<u>70,175,450</u>
Net (loss)/gain on financial assets at fair value through profit or loss:		
Realised gain on disposals	311,420	557,267
Change in unrealised fair value (loss)/gain	<u>(10,500,301)</u>	<u>4,136,590</u>
	<u>(10,188,881)</u>	<u>4,693,857</u>

Name of counter	Quantity	Aggregate cost	Fair value as at 30.6.2018	Percentage of net asset value of the Fund
	Units	RM	RM	%
Schroder International Selection Fund-Emerging Markets – Class A	<u>2,158,533</u>	134,028,181	<u>135,304,366</u>	97.08
UNREALISED GAIN ON FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS		<u>1,276,185</u>		
FAIR VALUE OF FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS		<u>135,304,366</u>		

Name of counter	Quantity	Aggregate cost	Fair value as at 30.6.2017	Percentage of net asset value of the Fund
	Units	RM	RM	%
Schroder International Selection Fund-Emerging Markets – Class A	<u>1,152,750</u>	62,195,626	<u>70,175,450</u>	93.92
UNREALISED GAIN ON FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS		<u>7,979,824</u>		
FAIR VALUE OF FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS		<u>70,175,450</u>		

The Target Fund is a Sub-fund of the Schroder International Selection Fund which is a SICAV (“Société d’Investissement à Capital Variable”).

Schroder International Selection Fund (“SICAV”) is an open-ended investment company organised as a “Société Anonyme” under the law of the Grand Duchy of Luxembourg and qualifies as a SICAV. The Target Fund was launched on 17 January 2000. The Investment Manager of the Target Fund is Schroder Investment Management Limited in UK.

The Target Fund seeks to provide capital growth primarily through investment in equity and equity-related securities of emerging markets companies.

7. CASH AND CASH EQUIVALENTS

	2018	2017
	RM	RM
Bank balance	27,011	23,059
Deposit with a licensed financial institution	4,580,841	4,250,442
	<u>4,607,852</u>	<u>4,273,501</u>

The effective weighted average interest rate of deposit with a licensed financial institution per annum as at the date of the statement of financial position are as follow:

	2018	2017
	%	%
Deposit with a licensed financial institution	<u>3.35</u>	<u>3.80</u>

The deposit has an average maturity of 2 days (2017: 3 days).

8. UNITS IN CIRCULATION

	2018	2017
	No. of units	No. of units
At the beginning of the financial period	303,774,604	56,783,942
Creation of units arising from applications during the financial period	182,113,663	199,519,154
Cancellation of units during the financial period	(98,162,275)	(43,355,832)
At the end of the financial period	387,725,992	212,947,264

9. TRANSACTIONS WITH ISSUER

Details of transactions with the issuer are as follows:

Name of issuer	Value of trades	Percentage of total trades
	RM	%
<u>2018</u>		
Schroder Investment Management (Singapore) Limited	43,390,379	100.00
<u>2017</u>		
Schroder Investment Management (Singapore) Limited	57,302,756	100.00

The issuer highlighted above is not related to the Manager. There are no brokerage fees charged by the issuer.

10. UNITS HELD BY THE MANAGER

The related party of and its relationship with the Fund are as follows:

Related party	Relationship			
Eastspring Investments Berhad	The Manager			

	2018		2017	
	No. of units	RM	No. of units	RM
Eastspring Investments Berhad	1,000	360	1,000	351

The above units were transacted at the prevailing market price.

The units are held legally by the Manager and are within the prescribed limit allowed by SC's Guidelines on Unit Trust Funds. Other than the above, there were no units held by the Directors or parties related to the Manager.

11. MANAGEMENT EXPENSE RATIO ("MER")

	2018	2017
	%	%
MER	0.25	0.30

MER is derived from the following calculation:

$$\text{MER} = \frac{(A + B + C + D + E)}{F} \times 100$$

A = Management fee

B = Trustee fee

C = Audit fee

D = Tax agent fee

E = Other expenses (inclusive of GST charges)

F = Average net asset value of the Fund calculated on a daily basis

The average net asset value of the Fund for the financial period calculated on a daily basis is RM138,368,616 (2017: RM50,641,846).

12. PORTFOLIO TURNOVER RATIO ("PTR")

	2018	2017
PTR (times)	0.16	0.57

PTR is derived from the following calculation:

$$\frac{(\text{Total acquisitions for the financial period} + \text{total disposals for the financial period}) \div 2}{\text{Average net asset value of the Fund for the financial period calculated on a daily basis}}$$

where:

total acquisitions for the financial period = RM38,112,942 (2017: RM52,891,837)

total disposals for the financial period = RM5,277,437 (2017: RM4,410,919)

13. SEGMENTAL INFORMATION

The internal reporting provided to the chief operating decision-maker for the Fund's assets, liabilities and performance is prepared on a consistent basis with the measurement and recognition principles of MFRS and IFRS. The chief operating decision-maker is responsible for the performance of the Fund and considers the business to have a single operating segment located in Malaysia. Asset allocation decisions are based on a single, integrated investment strategy and the Fund's performance is evaluated on an overall basis.

The reportable operating segment derives its income by seeking investments to achieve targeted returns commensurate with an acceptable level of risk within the portfolio. These returns consist of interest income earned from investments and gains on the appreciation in the value of investments.

There were no changes in reportable operating segment during the financial period.

14. APPROVAL OF FINANCIAL STATEMENTS

The financial statements have been approved for issue by the Manager on 17 August 2018.
